STONE BRIDGES

Hillsboro, Hillsboro County, New Hampshire

<u>Owner</u>	Town of Hillsboro
<u>Date of Erection</u>	Unknown
<u>Architect</u>	Unknown
<u>Builder</u>	Unknown
<u>Present Condition</u>	Damaged by floods of 1935 and are being repaired.
<u>Materials of Construction</u>	Heavy quarried granite for arches and facing of piers. When the piers are very wide native stone is used bordered with granite. Original rails were saplings bolted to the stone posts. All stones were laid dry and a dirt roadway was laid over them.

Prepared by E. W. Clark, District Officer, December, 1937

revised June 20 1938 M.D.
